# STRYTEN ENERGY'S MARINE/RV ENHANCED FLOODED BATTERY

## Features and Benefits:

- Enhanced Flooded Battery (EFB) Technology is engineered to significantly improve charge acceptance and increase cycle life by using glass veil technology, providing extra plate protection.
- LifeGrid™ Technology uses calcium/lead alloy punched-grid plates that provide maintenance-free performance, consistent power and enhanced durability.
- ErgoLock™ manifold cover provides 2x better venting and superior leak resistance with centralized vent ports that prevent acid leakage up to a 45 degree tilt.
- ErgoLock handle is a newly redesigned large-grip ergonomic handle that neatly lies flat within the cover and can carry up to 3x the battery weight.
